

## PORTING AUTHORIZATION

We authorize VoIP Systems USA, LLC. to proceed with the porting (moving) of our **VOICE** telephone numbers, **VOICE** toll-free numbers, **VOICE** RCF numbers as well as any of the other **VOICE** telephone numbers listed for porting on the signed LOA and RESPORG forms we have submitted and in accordance with our signed Service Activation Form and Agreement and its applicable Terms and Conditions. These numbers will be ported (moved) from our current carrier (losing carrier) to the new Hosted System. **We certify that all numbers being ported are for VOICE service only and that they are NOT USED OR SHARED for alarms, fax machines, e-fax, modems, credit card machines or any other non-VOICE communication.**

We understand that often, losing carriers will unilaterally disconnect or increase pricing for any remaining phone numbers when most of an account is disconnected, moved or ported. We also understand that while some of the remaining phone numbers must remain in-service, (i.e. for our alarms, fax machines, modems, credit card machines, etc.) other remaining phone numbers can safely be deleted for additional savings to us.

### YOU MUST CHECK EITHER A. OR B. AND SIGN BELOW

**A.** In order to avoid the possibility of disconnect or price increase and to take advantage of potential savings we authorize VoIP Systems USA, LLC and its affiliates to initiate separate paperwork and orders (for our approval) to move these remaining non-VOICE phone numbers (which I determine should be kept) to a low-cost Verizon reseller and to delete any numbers (which I determine should be deleted) which are no longer needed. Completion time would range from 1-3 weeks AFTER the porting is completed and once the signed order is submitted depending on the carrier and the quantity of phone numbers involved.

**B.** All remaining phone numbers will stay with our current carrier. We will coordinate any necessary changes ourselves to ensure that those remaining phone numbers which we still require are not disconnected and to eliminate any phone numbers we no longer need.
