Who Is USA Phone?

USA Phone has been in business since 1981, providing VoIP Phone Service and Cost Consulting to the SMB/Enterprise Markets with an extensive menu of world class business enhancements for Voice, Internet and Networking Services.

What Is VoIP Service?

VoIP Service uses your EXISTING Internet and eliminates your other expensive connections to save money. Use our VoIP service with remote phones, mobile apps and connect anywhere in the world!

What Does USA Phone Offer?

We offer service plans for Small-Medium businesses (2-499 users) and Enterprise users (500+), including features for mobile workers, multiple offices and off premise remote locations. Our Advance Call Center and Call Recording and Fail Over Redundancy are world class. We offer customized service plans to match your business requirements. We provide flexible financing options including bring your own phones, rental, lease and purchase options.

What Separates USA Phone From Other VoIP Service Providers?

As part of our Onboarding Process, we include a review of your current costs to remove old services, skeletons left on your bill and update your current internet to get the fastest speeds. Then we include a Service Profile, a Site Survey, a Dedicated Account Specialist, and an On-Site Installation with No Service Downtime. Our Hands-On Training is second to none. During the entire service term, we deliver 24x7x365 ongoing Customer Support.
